Mater Misericordiae University Hospital GP STUDY DAY Catherine McAuley Education Centre Saturday 4th March 2017

Dear Colleague

On behalf of the Mater consultant staff, I am delighted to invite you to the 2017Annual Mater Hospital GP Study Day. The lectures and workshops will be held in the Catherine McAuley Education Centre (entrance via Nelson Street).

This year we have put in place a programme which aims to build on our past experience of this meeting. The Study Day gives us an opportunity to introduce new colleagues and services which we hope will further develop the links between hospital and primary care practice into the future.

Lectures and workshops this year seek to address select core topics in daily clinical practice, also an opportunity to meet some of the more recently appointed Mater Consultants. We shall also be seeking your input and feedback for future developments.

To ensure you receive your 1st choice of workshops, please return this form immediately - self-addressed envelope enclosed.

We look forward to welcoming you to the Mater next month.

Sincerely

Dr Denise M Sadlier Study Day Organiser
