Welcome

St Brigid's Ward is a 31 bedded medical ward incorporating a 12 bedded **Acute Stroke Unit** and Care of the Older Person. We care for patients with acute medical conditions and progression of their rehabilitation.

Nurses working in this area are exposed to a diverse range of acute medical conditions while working as part of a multi-disciplinary team to provide acute specialist stroke and care of the older person services.

You will enjoy working as part of an established and **dedicated nursing team** to plan, assess, implement and evaluate individualized nursing care and provided holistic nursing care.

You will also have the opportunity to become involved in preceptoring nursing students with varying experience to provide a positive environment to facilitate learning.

Opportunities

Nurses working in our area have access to Postgraduate educational support, Continuing professional development courses and the opportunity for **career progression**.

Projects / Research / Lean

A **Lean project** "Our Daily Bread" was carried out in 2012 to address patient nutrition issues. The use of identifiable green trays were piloted on St Brigid's ward with excellent feedback and significant patient benefit.
