Infectious Diseases Unit

ED & Specialty Medicine Directorate

Mater Misericordiae University Hospital

Welcome

The Mater Misericordiae University hospital (MMUH) has a long tradition of being a designated referral centre for the management of infectious diseases in Ireland and has a dedicated cadre of doctors and nurses with specialty training in this area. It has been designated as the National Isolation Unit of Ireland (NIU) to deal with such contingencies. The ID unit of St. Bernard's ward where the Isolation Unit is located provides 2 high specification negative pressure rooms, 4 standard negative pressure rooms with a total bed complement of 12.

Our dynamic and motivated nursing team are actively involved in the provision of care to the inpatients and outpatients service.

Opportunities

- In service training (PPE, cannulation and venipuncture)
- Regular rotation to the outpatient service
- Potential for career development supported and encouraged

Projects / Research / Lean
